

ASWIN SURESH

aswinsuresh397@gmail.com | Kochi, Kerala | +(91) 6238919821 | <https://linkedin.com/in/aswin-suresh-448785273>

SUMMARY

MBA Data Analytics graduate and certified Six Sigma White Belt with a strong foundation in software development and international business strategy (Erasmus+ DAAD Exchange, Germany). Highly skilled at bridging technical data—leveraging Python, SQL, and Power BI—with broader business objectives to drive operational efficiency, process optimization, and informed decision-making. Possesses a proven track record of managing end-to-end analytics projects, leading cross-functional initiatives, and translating complex datasets into actionable market insights to solve business challenges in fast-paced environments.

EDUCATION

Master of Business Administration (MBA) in Data Analytics | Grade 9.12 | Pondicherry University, India 2024 - 2026

- Modules include: Business Analytics, Financial Analysis, Marketing Strategy, Digital Marketing, Statistical Data Analysis

Bachelor of Science (BSc) in Computer Science | Grade Rank Holder | University of Kerala 2021 - 2024

- Modules include: Programming, Business Analysis, Internet of Things (IoT), Data Analysis and Project Management

PROJECTS

Language Tandem Project: International Management | International Business Intern, Germany Sept 2025 – Feb 2026

- Managed International Students and Events in a European Multicultural Setting.
- Conducted 3 major events facilitating intercultural communication management.

Supermarket Chain Analytics & Business Strategy | Inmakes Infotech Pvt Ltd , India June – Sept (2024)

- Developed a data analytics project utilizing advanced statistical tools and Python (Seaborn, Pandas) to evaluate supermarket sales performance.
- Analyzed monopolistic supermarket ecosystems and student community demand to uncover strategic supply chain insights and present findings to academic and business panels.

IoT Automated Energy Management System | University of Kerala, India Jan – May (2024)

- Designed an automated energy management solution for residential and commercial settings, integrating Raspberry Pi, C++, and Django.
- Optimized energy consumption dynamically, merging hardware networking principles with backend data processing.

Certifications:

Machine Learning Fundamentals Micro-Credential | Alteryx 2025

- Completed applied training in predictive modeling and machine learning concepts to leverage automated analytics tools for forecasting and strategic business decision-making.

Data Science & Data Science Tools | IBM 2025

- Mastered Python programming and essential data science environments to efficiently clean, manipulate, and visualize complex datasets for actionable business intelligence

Six Sigma White Belt | The Council for Six Sigma Certification (CSSC) 2025

- Acquired foundational knowledge of Lean Six Sigma methodologies and the DMAIC framework to identify process inefficiencies and support continuous, data-driven operational improvements.

UGC NET (Assistant Professor & Ph.D. Eligibility) | University Grants Commission 2025

- Demonstrated rigorous analytical capabilities and advanced subject matter expertise by qualifying in this highly competitive national examination, validating a strong foundation for high-level research and strategic evaluation.

WORK EXPERIENCE

International Business Intern (Department of Language Affairs) | KUAS, Germany Sep 2025 - Feb 2026

- Conducted academic reporting and data analysis to drive actionable insights for international student integration projects.
- Facilitated the "Data in Everyday Life" workshop, teaching data visualization to non-technical stakeholders.

AI Trainer Annotator | Outlier | USA, Remote Mar 2025 – Aug 2025

- Evaluated and refined AI models through rigorous data annotation to improve algorithm accuracy.

Junior Software Developer Intern | Inmakes Infotech Pvt Ltd , India May 2024 - Sept 2024

Full Stack Web Developer

- Deployed full-stack web applications, including a Quick Commerce system using Python and Django.

LANGUAGES AND SKILLS

Languages: English (Advanced proficiency), Malayalam (Native), Hindi (Working Proficiency), German (A1 level of CEFR)

Technical Skills:

Python (Pandas, NumPy, Seaborn, Matplotlib, scikit-learn, OpenCV, Django, Flask), SQL, C++, JavaScript, Git, MS Office (Advanced Excel, PowerPoint, Word), Microsoft Power BI, Jupyter Notebook, Machine Learning, Predictive Analytics & Modeling, Statistical Data Analysis, Financial Analysis, Business Strategy, Process Optimization, Operational Efficiency, Stakeholder Management, Project Management, Executive Reporting, KPI Tracking, Data modelling & visualization, Data Processing, Business Intelligence.
